## Discovering the Christian Faith

We have a simple course about the Christian faith which is for anyone who is interested in finding out for themselves whether it is true and relevant to the world today. It consists of five sessions based on the life and teaching of Jesus Christ.

During the course we look at various passages from the Bible in an easy-to-read book which we provide free. We hope that these passages will stimulate discussion as well as give information about what Jesus actually said and did. In our experience many people have rather hazy ideas about these things; all they can recall are snippets of information from their 'Bible in school' days, or perhaps what they have heard on television, or the occasional visit to church. Many people too, have lots of unanswered questions and welcome the opportunity to discuss them with someone who may be able to point them toward an answer.

People who have used this course have commented on how helpful it is in these ways.

We will send you a team of two people - not religious salesmen, but ordinary people, to work through the course with you. They may not be able to answer all your questions on the spot, but they will be able to share with you what they have found to be true about the Christian faith in their own experience and will always try to find a satisfactory answer to your queries.

The team will come to your home on any day (or evening) that is convenient for you and will stay as long or short a time as you want them to.

If you wish to know more about us, please do not hesitate to contact ...
